WORK EXPERIENCE

SpringBoard

Full-Stack Developer | January 2026 - April 2026

- Built Shopify and WordPress websites using Liquid, PHP, JavaScript, and CSS/SCSS.
- Translated Figma designs into responsive page layouts and reusable theme components.
- Investigated image-loading and site-search issues and fixed frontend defects.

Shopify Developer - Part-Time & Freelance

Front-End Developer, Back-End Developer & QA Tester | March 2024 - April 2026

- Built Shopify product pages and landing pages with Liquid, JavaScript, and SCSS.
- Implemented interactive storefront features with Swiper and Slick, including responsive sliders.
- Tested mobile layouts and customer interactions; resolved styling and JavaScript bugs.

INTERNSHIP

NLEX Corporation

IT On-the-Job Trainee | January 2025 - March 2025

- Developed a web-based monitoring system that retrieved plaza-status information from an Oracle database for operational visibility.
- Created a one-way RFID ticketing prototype using HTML, CSS, JavaScript, and Excel as a data store.

PROJECTS

Client Business Websites - Shopify & WordPress

Full-Stack Developer & QA Tester

- Built Shopify storefronts and customized WordPress websites with Avada and Elementor.
- Implemented reusable theme components and responsive page layouts from Figma.
- Validated page behavior across screen sizes and resolved interface issues.

Personal Projects - 3D Debut Website

Front-End Developer | Three.js, JavaScript & SCSS

- Developed a Three.js invitation website with JavaScript and SCSS for a debut celebration.
- Created an animated entrance and interactive 3D visual effects for the invitation.
- Adapted the experience for desktop and mobile layouts.
